## PREFACE

This booklet is the eighth in a series of annual statistical reports from the National Association of Schools of Music. The information contained herein is based on the 1973-74 annual reports of member institutions to the Association. Of the 409 institutional members of NASM in 1973-74, 399 (98%) submitted annual reports, although 14 reports were received too late for inclusion in the data base.

Every effort has been made to preserve the confidentiality of institutional reports. Statistical information is reported by support (private or public) and size (number of music major students) of institutions or, in some cases, by highest degree level offered. The number of institutions reporting the various types of information varies because some reports were incomplete. Data from two-year colleges were included where appropriate and where the number of reports from two-year colleges was sufficient to provide valid statistics.

Information from NASM annual reports is preserved in a data base for immediate access. The NASM Washington office can prepare special reports upon request and member institutions are encouraged to avail themselves of this service. Institutional reports are categorized in the data base by the following:

- a) type of institution (two year college, independent school of music, theological seminary, college/university)
- b) highest degree level offered (associate, baccalaureate, masters, doctorate)
- c) type of support (private or public)
- d) music major enrollment
- e) total enrollment of institution
- f) region of the country

Any one or any combination of these categories may be specified when requesting special reports.

This publication, *Music in Higher Education 1973-74*, is a continuing project. It is our hope that the members of the National Association of Schools of Music will be generous in sending suggestions for modifications or additions in future editions.

Processing of the data for this publication was accomplished by means of the Kronos Time-Sharing Service, System 2000, of the Control Data Corporation.

## ENROLLMENTS AND DEGREES AWARDED

In reporting student enrollment and degrees awarded in specific undergraduate degree programs, the labels *BM*, *MaEd*, and *BA* were used in the interest of brevity. The following definitions apply:

<i>BM</i>	Pre-professional undergraduate music majors (curricula with approximately 2/3 music) <i>This category does not include music education majors.</i>
<i>MaEd</i>	All undergraduate music education majors (curricula leading to music teaching certificate)
<i>BA</i>	Undergraduate liberal arts music majors (curricula with approximately 1/3 music)

In reporting statistics for masters degrees, music education and music therapy have been combined into one category, all other areas being combined under the label *non-MaEd*.

Doctoral degree programs are labeled according to the areas of study, regardless of specific degree title.
